# **CREDIT RISK - LOANS**

The classes of loans entered into by Unity Bank Limited are limited to loans, commitments and other non-market off-balance sheet exposures. Unity Bank Limited does not enter into debt securities and over-the-counter derivatives.

## Impairment details

The level of impaired loans by class of loan is set out below. In the note below:

- Carrying Value is the amount of the balance sheet gross of provision (net of deferred fees)
- Past due loans is the 'on balance sheet' loan balances which are behind in repayments past by 90 days more.
- Impaired loans are the 'on balance sheet' loan balances which are at risk of not meeting all principal and interest repayments over time.
- Provision for impairment is the amount of the impairment provision allocated to the class of impaired loans.
- The losses in the period equate to the additional provisions set aside for impaired loans and bad debts written off in excess of previous provision allowances.

The impaired loans are generally not secured against residential property. Some impaired loans are secured by bill of sale over motor vehicles or other assets of varying value. It is not practicable to determine the fair value of all collateral as at the balance date due to the variety of assets and their condition.

The analysis of Unity Bank Limited's loans by class, is as follows in Table 4.

# **GENERAL RESERVE FOR CREDIT LOSSES**

This reserve is set aside to quantify the estimate for potential future losses in the loans and investments.

In addition to the provision for impairment, the board has recognised the need to make an allocation from retained earnings to ensure there is adequate protection for members against the prospect that some members will experience loan repayment difficulties in the future.

The reserve has been determined on the basis of past experience with the loan delinquency and amounts written off.

The value of the reserve is amended to reflect the changes in economic conditions, and the relevant concentrations in specific regions and industries of employment within the loan book.
